Update to Vaccination Requirements for Indoor City Recreation, Sport and Event Facilities September 21, 2021

The City of Windsor has updated the vaccination requirements announced on Monday, September 20, 2021, and will now require anyone 12 or older entering a City run recreational or event facility **as a participant**, to have **at least one covid-19 vaccination as of Wednesday, September 22, 2021**. This will allow young people the opportunity to continue to participate in activities while also giving time to become fully vaccinated.

The requirement for one vaccination is a change from the city's original plan released yesterday requiring full vaccination for participants. Non-participants aged 12 and up will still require full vaccination as that is mandated provincially. **A new deadline for participants age 12 and up to be fully vaccinated is now Monday, November 15, 2021.**

The new one vaccination requirement applies only to City-owned **indoor** recreational venues or facilities that have event spaces, such as banquet halls and conference/convention centres (e.g. Capri Pizzeria Recreation Complex, Windsor International Aquatic and Training Centre Presented by WFCU Credit Union, Willistead Manor, Capitol Theatre, Mackenzie Hall, WFCU Centre, etc.). Proof of vaccination is not required for outdoor venues or facilities. Additional information on proof of vaccination, including exemptions, is available at www.health.gov.on.ca.

You can visit the Ontario Health website to download your proof of vaccination. Facility staff will also accept vaccine documents provided at the time of vaccination or an emailed printout as long as they show at least one vaccination received. Proof of valid ID is also required and can be confirmed by presenting a birth certificate, citizenship card, driver's licence, Government (Ontario or other) issued identification including health card, Indian Status Card/Indigenous Membership Card, passport, or Permanent Resident card.

The City has established an online COVID health screening app for visitors to our Recreation & Culture facilities. The app can be accessed from a desktop or phone and would qualify as proof of screening for users of our facilities. Once the screening is done the user will receive an email that confirms they are cleared to enter a given facility on a given day. This email can be shown to screening staff upon entry to the building. The link to the app is <https://publicscreening.citywindsor.ca>. Below is also a QR code that can be scanned by a phone to access the screening app.
